

Budgetary Control System 2024

- The budget should be a detailed plan for the future, covering all areas of the business, and should be realistic.
- Detailed budgets should be prepared for each department.
- The Responsibility Centre should be able to measure its budget. A centre should be directed to a particular budget.

Introduction

It is a pleasure to welcome you to the first of our three sessions. The first session will be a general overview of the course and the second session will be a more detailed look at the course content.

The first session will be a general overview of the course and the second session will be a more detailed look at the course content. The third session will be a more detailed look at the course content.

Please see the attached document for more information about the course and the first session.

*Under the Road Traffic Act 1988, the Road Traffic (New Drivers) (Learners) Order 1995, Road Traffic (Offences) Act 1988, Traffic Signs Regulations and General Directions 1992, and the Road Traffic Act 2006.

All of our courses are accredited by the British Accreditation Authority (BAA) and are also accredited by the Road Safety Council (RSC). For more information, please visit the RSC website at www.rsc.li/rta or the BAA website at www.ukas.com/search-accredited-organisations/
