

Royal Society of Chemistry Wireless Access Policy

Introduction

It is recognised that wireless broadband access could offer great benefits to the Royal Society of Chemistry's members and visitors to its meeting room and library facilities. The purpose of

2. Identification: You must not attempt to authenticate yourself with false credentials.
3. Network security: We reserve the right to conduct scans of devices connected to it and what services they are operating. You must not use a network address other than those allocated to you.
4. Computer security: You must ensure that your computer has the latest system updates and other security updates are installed. You must not use any software that is not licensed to you.
5. Service operation: You must not do anything that interferes with the normal operation of the network. This includes using an unfair or excessive share of the available network bandwidth.
6. Copyright: It is illegal and against Janet AUP to copy or share copyrighted material without permission from the copyright holder. You must not use any software that does not correctly configure a file sharing program on your computer.
7. eduroam extra policies: When using the eduroam service, you must also adhere to the policies of organisation providing the eduroam access.

Unacceptable Usage

As well as adhering to the above regulations, users must also ensure they comply with the following guidelines on what is determined as unacceptable usage of RSC wireless facilities:

- Any attempt to undermine the security of the Royal Society of Chemistry network, this includes undertaking any unauthorised penetration testing.
- Any use which brings the Royal Society of Chemistry into disrepute.
- Any use of facilities to bully, harass, intimidate or otherwise cause harm to any individual.
- Sending unsolicited and unauthorised bulk email (spam)
- Creating, storing or transmitting any material which infringes copyright.
- Creating, storing or transmitting defamatory or obscene material.
- Using software which is only licensed for limited purposes for which it was intended in its licensing agreements.
- Failing to comply with a request from an authorised person to stop using a facility if it is deemed detrimental to the operation of the Royal Society of Chemistry.
- Failing to report any breach, or suspected breach of information security.
